

The Stage Bus Ltd—Environmental Policy

The Stage Bus Ltd recognises that it has a responsibility to the environment beyond legal and regulatory requirements. We are committed to reducing our environmental impact and continually improving our environmental performance as an integral part of our business strategy and operating methods. We are proud to be at the forefront of providing environmentally sustainable staging and events support.

Responsibility

Andrew Teverson, Director of The Stage Bus Ltd, is responsible for ensuring that this environmental policy is implemented. However, all employees, subcontractors and freelancers hired by The Stage Bus Ltd have a responsibility to ensure that the aims and objectives of this policy are met.

Policy Aims

We endeavour to:

- Comply with all relevant regulatory requirements
- Continually improve and monitor environmental performance
- Continually improve and reduce environmental impacts
- Increase employee awareness

Paper

- We are committed to running a paperless business in so far as practically possible. To this end, printing and paper correspondence shall be kept to a minimum in favour of email and other electronic means of communication.
- We always aim to use paper from renewable sustainable sources and all non-confidential paper shall be recycled whenever possible.

Transportation & Vehicles

- Insofar as reasonably possible, all vehicles owned and operated by The Stage Bus Ltd shall be run on bio-fuels in order to reduce our carbon emissions.
- Vehicles will be maintained to the highest possible standards to ensure minimal environmental impact from any emissions and the prevention of leaks/spillages of potentially harmful materials, such as oils/lubricants, into the environment.

Solar Energy

- Since inception The Stage Bus Ltd has been committed to the use of solar energy to power its stages. All of our stages are run insofar as possible on solar energy and backup generators are used only when absolutely necessary.

Monitoring and Improvement

We will:

- Comply with all relevant regulatory requirements
- Continually improve and monitor environmental performance
- Continually improve and reduce environmental impacts
